

6516209602.txt

Greeting,

I am an XM listener. I do not want my government to limit XM radio channel use per this NAB prtition 04-160.

I recently went to Washinton DC and found it much easier to use than trying to search up and down the radio dial for a station.

I submit for public record that I am against this bill to limit satellite radio.

Thank you

Mike Keaser
